2500 chamfered

Proven Design
Aesthetic Appeal

Welcome to the 2500 decorative series

The 2500 series embodies the elements of proven design with aesthetic appeal to compliment any home.

Clean and uncluttered, styled to meet the most current trends year after year

Simple yet effective, the gentle chamfered design looks sharp and stays that way with no nooks or crannies for dirt to collect. Whatever your taste, the look of these windows and doors is easy on the eye without compromising its intelligent design. A sound investment against the harshest elements.

Inspired designs, created by
Deceuninck

We take our inspiration from the buildings and environment around us. So our designs are flexible, versatile and are created to

suit new age styling and period properties alike. What's more, all products undergo rigorous tests to ensure they are of the highest quality, durability and reliability. So you can feel confident that your windows and doors will stay beautiful for longer, with very little maintenance.

And, as you'd expect from the UK's leading window and door supplier, all our designs are recyclable.

All kinds of finishes. All kinds of possibilities

Colours to complement

Whatever the location and style of your property there's a finish to match.

Our collection includes colours that have been specially chosen to complement any property. A choice of finishes is also available including rosewood or golden oak to give windows a more natural timber look. Then there's Docoroc surface coating to add inspiration to any interior with a splash of colour.

All kinds of surrounds for all kinds of properties

Because there's no such thing as a standard building, the 2500 decorative series is supremely flexible.

Choose from tilt and turn, casement and pivot windows, vertical sliding, entrance, French and patio doors.

A choice of rosewood or golden oak finish can give windows and doors a more natural timber look.

Our high performance weatherseal demonstrates the kind of intelligent thinking that makes our products market leaders.

Intelligent design produces better performance

Cutting-edge technology. Unrivalled all-weather protection

The 2500 decorative series is an outstanding addition to any structure. And demonstrates the kind of intelligent thinking that makes our products market leaders. Take our high-performance weatherseal as an example, with:

- Tightly welded corner seals and low sightlines ensuring a perfect finish
- Tubular construction results in soft closing and an outstanding weatherseal memory
- Weatherseal colours blend perfectly with the window and door finishes

And protection from rogue elements too

It's not just the all-weather properties that make the 2500 decorative series an excellent choice. It's good to know it's also compatible with all standard security hardware and even offers several unique security features of its own. As well as having BS 7950: 1997 and PAS 24-1: 1999 accreditations.

Outstanding insulation

With its large contact surface area, the 2500 decorative series seal, provides superb thermal insulation and sound-proofing too. It also complies with all current Building Regulations and has both BS 7412:2002 for weather performance and BS EN 12567-1:2000 accreditations.
